College, A.A.S., Orn. Hort. 1978 Rutgers University, B.S., Land. Arch., 1981	Years of Experience: 39	With this Firm: 24
--	---	--------------------------------	---------------------------

Summary of Qualifications: Since joining Human & Rohde, Inc. in 1996, Ms. Pinhey has been project manager for a wide variety of project types, including commercial office/industrial sites, housing projects, regional parks, trails, and playgrounds for private developers, communities, municipalities, and U.S. government facilities. Her duties range from conceptual design through construction documents, performing site planning and grading studies, planting design, detailing, construction administration, and on-site construction observation. Ms. Pinhey has maintained certification as a Certified Playground Safety Inspector (CPSI) since 1999 to stay abreast of the guidelines and standards for playground safety.

OTHELLO REGIONAL PARK

2020

Frederick County Division of Parks & Recreation

Adapted the master plan prepared by others to produce construction documents for Phase 1 of this 214-acre park site situated on rolling farmland in southwest Frederick County. Responsible for final layout and grading of athletic fields, including the design of a lighted, synthetic turf multi-purpose field with stadium bleachers with press box, accessible trails and boardwalks, park shelters, restroom building, playground, internal directional signage, landscaping, and maintenance yard. Coordinated with civil and architectural sub-consultants to obtain grading and building permits. Provided construction administration services.

UTICA DISTRICT PARK

2020

Frederick County Division of Parks & Recreation

Prepared construction documents for Phases 1 and 2 based on the master plan prepared by Human & Rohde, Inc. and provided construction administration services for this 257-acre park. Coordinated with the County and the design team through the design and construction process. Phase 1 construction included the park road, parking lots, (2) grass multi-purpose fields, a softball field, and Little League field, (1) playground, several pavilions, and regional maintenance complex. Phase 2 included trails, boardwalks, road extension with bridge, and the design and detailing for the double lighted synthetic turf fields with two-sided stadium bleachers and press box, shade structures, and permeable paver plaza with custom paver Parks & Rec logo. Designed (3) play areas including a custom designed destination playground.

SOUTH SHORE TRAIL PHASE 1

2019

Anne Arundel County Department of Recreation and Parks

Responsible for project management for this 1.8-mile section of this trail which travels for the most part along the old WB&A Railroad right-of-way in Millersville, MD, from Route 3 to Waterbury Road. Prepared sketches for alternatives to the trail alignment to lessen environmental impacts and reduce costs and for the layout of the parking lot at the Board of Education property as the project progressed. Prepared site details and designed the trailhead area, as well as landscaping in accordance with the county landscape manual and for stormwater management mitigation. Prepared the Roadside Tree Permit.

HAMMOND'S CONNECTION AT THE DAIRY FARM

2012

Anne Arundel County Department of Recreation and Parks

Prepared schematic plans, construction documents, and cost estimates for the development of Phase 1 of this historical/educational park on a portion of the 176-acre US Navy Dairy Farm site. Responsible for final layout of walking trail, parking and roadway, design and detailing of the community garden and display gardens, as well as landscape design for the large bioretention area associated with the proposed parking facility and coastal plain outfalls. Assisted with the design of the storyboards for various themed garden areas.

RED RUN STREAM VALLEY TRAIL

2010

Baltimore County Department of Recreation and Parks

Prepared a feasibility study of initial trail alignment and amenities. Determined final trail and boardwalk layout, designed special trail signage, landscaping, recommended amenities, prepared donor packages for fund raising, prepared construction documents and cost estimates.
